

## PUBLIC HOUSING TESTIMONIALS

Please note: Whitehead Chartered Surveyors was formed following the merger of WPM and WA

### CRAIG MAYBERRY-THOMAS

Building Surveying Manager | Tai Tarian

Over the past few years WCS have been engaged as cost consultants on a number of Framework contracts put in place with the aim of achieving WHQs compliance for Tai Tarian and formerly NPT Homes. Our Building Surveyors have formed very good professional working relationships with several members of Whitehead Allen's team through these projects. Their teams always aim to deliver on set deadlines and are very flexible in their approach to our demands as a client. Their technical knowledge coupled with their commercial diligence has allowed them to offer cost and time savings to the organisation on a number of projects.

### JANE WEIGHTMAN

Commercial Manager | Tai Tarian

Tai Tarian have used the services of WCS for a number of our Framework programmes over the last few years; currently undertaking cost management services for our External Boundary Programme. We have found that Jon and his team have excellent technical and contractual knowledge, delivering all aspects of their services in a collaborative, approachable and professional manner.

### NICK COPE

Major Works Manager | Tai Tarian

I've used WCS for approximately 3 years now, mainly as Cost Consultants, and on a number of different projects (generally refurbishment). They have never let me down, and have always performed very well. They are currently acting as Cost Consultants for "External Area Refurbishment Work" to domestic properties with a work value of £3.5M a year, equating to approx 1200 properties per year.

They also acted as Employers Agent on one of my (refurbishment) projects, and whilst the value wasn't huge at approx 1m, the project was very complex. WCS carried out this difficult role very well.

In my opinion one of WCS' greatest assets (or 2!) are Nick and John themselves. They are great to deal with, and are really nice guys, who know their profession very well, and will listen to you and act positively. Their Contractual knowledge is excellent. They have always provided sufficient resources to meet our demands, at one time providing 4 members of their team at one time to price up large quantities of (EWI) work, quickly and at very short notice.
